## A CHANGE OF VENUE

Judge Daniels Suddenly Proposes It for Tom Cleary.

He Charges the Press with Caricaturing the Trial.

On Monday He Will Decide if the Case Shall Be Removed to Another County.

When the Extraordinary Term of the Supreme Court opened for the continuance of the "trial of jurors" in the Cleary case this morning the usually placid features of Justice Daniels were clouded.

He whispered to Clerk Welsh and then paused in the proceedings while Mr. Welsh delivered this communication to the score of

'Judge Daniels instructs me to say that he is displeased with the reports of the trial printed in some of the papers. He says this was placed at the dis-of the reporters to facilitate them in making truthful reports of the trial. Instead, some of the papers printed untruthful reports. If he sees any more untruthful reports he says he will order the

truthful reports he says he will order the table removed from the room."

The reporters were indignant, and when noon arrived and The Eventso World's Saturday Half-Holiday law went into operation, the surrounded the Judge's dosk.

Judge Daniels said to them: "Some of the reports have been garbled and are untruthful. Jurors have been caricatured, and the tendency of the reports has been to draw into public contempt the administration of a court of justice.

"The Tones said recently that I was detained one afternoon in the County Clerk's office assisting the Sheriff in drawing a new panel of jurors. This was untrue. The World intimates this morning that it is to my pecuniary interest to drag this proceeding along when in fact I am losing every day, and it is directly against my pecuniary interest to sit here.

"I hope to see no more of it, or I shall be compelled to take severe measures."

Just before adjourning, Justice Daniels spring this dynamita bomb on the auditors:

compelled to take severe measures."

Just before adjourning, Justice Daniels sprung this dynamite bomb on the auditors:

"In view of the length of time already consumed, and the large number of citizens examined and found to be unsatisfactory and disqualified for the jury box in this case, because of their strong and fixed bias, and in view of the remoteness of the time when a jury for the trial of this defendant can be obtained, I will, if the defense so desire, give them time will, if the defense so desire, give them time to prepare the papers in a motion for a change of the place of trial to some other

ously: "It's a pretty hard job to get unbassed jurors here."

Five days have been consumed in "trying jurors," and the box is still empty. There have been 430 men examined, not one suiting both sides. Mr. Semple has been satisfied with only five, and these have been peremptorily challenged by the defense. The defense were satisfied with only three, and they were peremptorily challenged by Mr. Semple.

Two hundred men are summoned for Monday, but they will probably not be examined, though Justice Daniels declined to say whether he would grant the motion for a change of venue and Gen. Tracy and Mr. Shafer declared that they didn't know whether they would ask for a transfer or not.

### NO HEROICS HERE.

### Plain Facts About a Little Fire in Greenwich Street This Morning.

A report telephoned to THE EVEN-ING WORLD from Police Headquarters this morning stated that a fire at 1.20 a. M. in John Griffin's saloon, at 566 Greenwich street, had caused a damage of \$1,500, and that a number of children in the upper part of the house were rescued by Sergt, King, Roundsman Cruise and Police Sergt, King, Roundsman Cruise and Police-men O'Brien. Barry, Alfred Power, Dunn and McCauley, of the Prince street station." and McCauley, of the Prince street station.

The truth is that Sergit. King, Roundsman Cruise and the others were ready as the police of New York ever are to imperil life and limb to rescue those in danger, but at the fire this morning there was no necessity for any display of heroism, and what the police did there is not in any degree heroic.

The fire was a slight one, causing a damage.

The flames did not get cutside of the

The flames did not get outside of salcon.

The police did go through the house, assisting the people to get out, but there was no panic, and the people would have got out just as well and safely without them.

In proof of this, the tenant on the top floor, one Murphy by name, says it didn't amount to much, and Capt. Thompson, of the Prince street station, said to an Evening Waller reporter:

World reporter:
"Don't you print any nonsense about heroic rescues at that fire, because there were none. I don't want any sensationalism in my precinct. If there was any truth in that re-port I would know it. I am convinced that the fire did not amount to anything,"

BARRING ACCIDENTS, HE'LL WIN THE RACE IN BROOKLYN.

Plenty of Excirement and Patriotism at the West End Casino Last Night-Sprinter Hamilton Beats His Own Great Three-Mile Record-Side Events of the Track Booked for This Evening.

At 10 o'clock to-night the great seventy two-hour pedestrian contest at the West End Casino, South Brooklyn, will end.

Barring unforeseen accidents, Day is a sure winner, with Old Sport Campana a good second. Old Sport, by the way, has not been off the track since the race commenced, except to take nourishment.

This was the score at 8 o'clock this morn-

Herty, 155 miles, 16 laps; Elson, 184.10; Day, 222.13; Dillon, 189.12; W. Smith, 122.7; Campana, 211.9; Peach, 135.12; O'Brien, 147.14.

his two hundredth mile at 9.30 o'clock. He carried a handsome silk American flag over his right shoulder. An enthusiastic admirer had presented it to him.

There was a big crowd in the building at the time, and it went wild cheering and applauding the gallant Samuel.

O'Brien, the phenomenal boy pedestrian of Philadelphia, tickled that part of the spectators made up of sons of the tight little Emerald Isle by trotting gracefully around the tan bark with a large roll of green silk on which a harp was figured in gold.

Scarcely had the excitement created by these international episodes subsided when Sprinter Hamilton, who holds the amateur championship for three miles, ran three miles against time. The fastest he had made hitherto was 17m. 4s., accomplished at Worcester last year. Last evening he covered the distance in an even 17m. Time

Sam Day ran around the track with him on his third mile.

As Day completed his 200th mile, his well nick-named trainer, Happy Jack Smith, pleased the crowd with a neat speech, with sugared words for all the racers.

To night there will be numerous side attractions, in addition to the finish of the big race.

O'Brien has challenged Hamilton to reco two miles for \$25 immediately after the close of the big race.
Connors, Hegelman and Golden will run a ten-mile race.

### BIGAMY IN BROOKLYN.

Gilbert Attwood Held for Trial on Wife No. I's Complaint,

change of the place of trial to some other county."

This was a surprise, indeed, to Gen. Tracy and Ira Shafer. Beads of sweat started out on the latter and Gen. Tracy turned pale.

Neither was prepared, but asked till Tuesday to decide.

Mackenzie Semple was bewildered for a moment too. Judge Daniels declined to adjourn except to Monday, but added that if the defense had then decided to move for a change of venue he would give them another day to prepare the papers.

Alice De Thierry, who mysteriously disappeared from her home, 582 Leonard street, Monday, returned last night. She had left her home to seek employment and earn her own living.

As yet no trace has been found of Edward P. Hooper, the missing freight clerk of the Long Island Railroad Company's depot at Flatbush avenue, who disappeared Wednesday night. His accounts were \$500 short.

### YOUNG BARRETT RECOVERING.

### Pretty Sadie Sullivan Comes Downtown but Hurries Off Again.

Pretty Sadie Sullivan, the black-eyed cashier at Hegemant & Co.'s drug store, on whose account young Eugene De Milt Barrett tried to blow out his brains, did not go to Boston to see her quondam lover after all. She decided to remain at home after sending her telegram to the Boston police, and was at the drug store late yesterday afternoon.

She said she was coming down to work today, but her employers think that the accounts in the newspapers frightened her away again, for she did not put in an appear-

ance at the usual hour.

They are ready to welcome her whenever she gets ready to return, and all the customers at the soda fountion will be glad to see her back in her old place.

It appears that there was something else besides an overdose of cigarettes and unrequited love which drove young Barrett to his esperate act. It was stated this morning

that his accounts were not all right at Done-gan & Swift's at 174 Fulton street, where he was employed as a clerk. The members of the firm still refused to either deny or confirm the story, which the reporter learned had been circulated freely several days before his disappearance. Bosros, Jan. 25, Young Barrett is re-ported to be very confortable, and the phy-

# THE TIE-UP STILL ON

President Richardson Will Try to Run No Cars To-Day.

Strikers Determined, But Maintaining Their Good Order.

Apparent Lack of Americans to Auswer the Deacon's Advertisement.

The striking car conductors and drivers of the Atlantic Avenue Railroad in Brooklyn are keeping very quiet and are awaiting de-

velopments. President Richardson is still confined at his home, but he is not ill enough to be prevented from engineering the course of the

Company. He issued an address to the men last night in which he says men who apply for work today will be taken back, and in case they do not apply new men will be placed in their positions.

Commissioner Donovan arrived last even ing and immediately proceeded to the office of the Company, He saw Secretary Richand it is said that no settlements were proposed by either side. Secretary Richardson gave his side of the strike and that is about all there was done. Then the Commissioner held a conference

with the Executive Board of District Assembly 75. He will remain in Brooklyn until natters are satisfactorily adjusted. The Executive Board of 75, consisting of Messrs, Thomas J. Cooper, Patrick

The men issued yesterday a statement in the case, in which they say that they cannot now retract and do justice to themselves. They say that President Richardson pleads poverty, but that the reports of the Company filed at Albany show that his roads have been making money.

The Deacon's advertisement for 509 Americans to operate his horse cars did not bear much fruit. Either there are not that number of Americans unemployed, or they are distuctined to work for the Company, for only a coarter of that number applied for work this morning.

number applied for work this morning.

Every man, in making out his application, was required to state that he was an American citizen, and in addition to signing an application for work each applicant was required to sign his name to an agreement drawn up and printed by the Company.

The reporters were refused a copy of this, but an Evenisa Wonter man learned that it was an agreement to work on the trip system, at so much a trip. It also bound the men to work more than ten hours, if necessary to the Company's interests. Here are the prices per trip that each man will be paid:

Fitth, Seventh and Ninth avenue lines to Fulton Ferry, 28 4-7 cents per trip; Fifth, Seventh and Ninth avenue lines to Brooklyn Bridge, 25 cents per trip; Bergen street line,

probably five hundred people there and two solitary policemen looked lonesome and

scared. ared. This crowd was composed of the strikers and their friends, and strong but orderly efforts were made to prevent any of the applicants for positions from entering the office.

At 10 o'clock Secretary Richardson jumped off a Third avenue car. He was followed by five Italians, who attempted to go with him to the office. In a twinkling the crowd closed around the five. They were hustled around the corner, and when Mr. Richardson looked for them thay had descupered. The men were sent

and when Mr. Richardson looked for them they had disappeared. The men were sent back on the next car.

Secretary Richardson, when he arrived at his office, was immediately surrounded by reporters. To them he said the Company would make no attempt to run a car to-day.

"And why not?" asked The Evening Wolld representative.

"Because we won't," was the reply.

The men claim that a car has to be run before 4 o'clock to-morrow morning or else the Company's charter will be forfeited, and as soon as they learned of the Company's edict

soon as they learned of the Company's edict they surmised that the Deacon was going to play fox and run a car to-night, when there would be most likely less trouble.

Mr. William McGlory is not doing anything at present. The expose in The Even-iss World of the wild orgies at his fancy cake walk and masked ball in Armory Hall last Thesday night, attracted the attention of Mayor Grant, who promotly demanded of the Police Commissioners an explanation.

They referred the matter to Supt. Murray, who has determined to co-operate actively with the Mayor in closing up McGlory's and other vile resorts.

# BLACKBALLED.

Col. Ingersoll Barred Out of the Players' Club.

Augustin Daly Led the Forces Which Opposed Him.

It Was the Colonel's Anti-Religious Views that Caused It.

Col. Robert G. Ingersoll has been blackballed by the newly established Players' Club, founded by Edwin Booth at 16 Gramercy Park. The reason of the Colonel's rejection is

entirely on account of the well-known religious, or rather anti-religious views entertained by him. Many of the members contended that Col. Ingersoll's enrolment on the books of the Club would add so much to its prestige that

his peculiar agnostical tenets should be overlooked. It appears that the debate over this point

was fast and furious. Many of the shining lights of the Club vere in favor of admitting him. Then, too, some equally as brilliant were bitterly op-posed to his admission.

The question was voted on and the flat has gone forth that the elegant apartments of the actors shall not be graced by the keen-witted

This is not the first time he has used his gun in a careless manner. A few mouths ago he entered the barroom of the Empire House and suddenly outled a 44-calibre bulldog and began to fire. It was taken from him before any damage was done beyond a few holes in the walls.

A Meteor Falls Near Port Jervis.
